Sometimes even the most sociable and playful dogs will get into an altercation with another dog. Additionally, dogs play with their mouths open and use their paws frequently. Injuries are a rare occurrence and our staff is trained to intervene quickly and safely; however despite all precautions, a cut or laceration can happen in seconds. I acknowledge and understand that every pet reacts differently. I recognize that there is an inherent risk of illness or injury in any situation associated with a cage-free or social environment and that Fur and Feathers Pet Resort is not responsible for any veterinarian expenses incurred.
